## TRANSPORTATION

### A HSEC Compliant Crew Transportation Company

**Houston – New Orleans – Fourchon – Broussard – Houma**

“Land Based Transportation Safety has been, and continues to be, a major overlooked safety factor in the Offshore Oil and Gas Industry.

Since its Inception, MARITRANS has corporately mandated that its Transportation Services meet or exceed the General Safety Practices of the Oil and Gas Industry, and provide Industry Leading Safety Standards to this segment of Service provided to the Oil and Gas Industry.

With Two Decades of Safety and Quality oriented experience, we humbly believe MARITRANS is the HSE/QMS leader in our field of providing land based Crew Transportation Services to the Oil and Gas Industry.

As an Industry, we collectively have no greater mandate than to provide Safe Working Environments to our respective Staffs and as well the Souls we interact with daily to accomplish our work requirements.

Our Promise and Corporate Commitment is to provide Stellar HSE/QMS Transportation Services to our Industry, not compromised by cost or any other factor at any time.”

*Eric H. Toft*  
President
